YANKS AND AUSSIES CLOSING IN ON LAE

By FRANK ROBERTSON
(U. S. Staff Correspondent)

ALLIED HEADQUARTERS, In The Southwest Pacific, Sept. 14.—Salamaua was completely in Allied hands today.

American and Australian jungle troops broke into the big Japanese base in New Guinea from the south 24 hours after seizing the Salamaua airdrome. The victorious Allies then pursued remnants of the disintegrated Jap garrison northward toward Lae, a triumphal communique from Gen. Douglas MacArthur's headquarters announced.

Closing In On Lae
The Yanks and Aussies appeared destined soon to join forces with other Allied forces now closing in on Lae, 20 miles to the north, where an estimated 20,000 Jap troops are trapped.

Ground forces meanwhile increased their pressure on Lae from the west and from the east. Allied four-engine bombers, escorted by fighter planes, hammered Lae defenses anew with 49 tons of explosives, destroying a bridge on the vital Markham Valley, silencing several gun batteries and causing other extensive damage.

The communique also announced a devastating Allied attack on Jap-held Macassar, on Celebes Island in the Netherlands East Indies and other raids on enemy strongholds throughout the New Guinea and Solomons areas.

Macassar Bombed

Heavy Liberator bombers hurled 27 tons of explosives and incendiaries on waterfront and camp areas at Macassar. Numerous fires were set in waterfront buildings and warehouses, among oil storage tanks in the barracks area and at Mandai airdrome. One of the Liberator bombers failed to return.

Medium bombers started other fires at the Lahe airdrome on Amboma Island and among airdrome dispersal areas at Langgoor in the Kei Islands.

PA NEW OBSERVES

As further reports of the result of the first week-end are received, a peculiar situation has developed. In some sections of the county much damage was caused, while in other sections there was scarcely any.

Today is primary election day in Pennsylvania, and in New Castle and Lawrence county officials are being nominated for city and county offices. Polls do not close until 8 o'clock so that there is still time to get out and vote.

On other farms Pa New is informed that plowing and plowing are the order of the day.

Voters Of State Former Fire Chief Going To Poles Dies In Accident

Only One State-Wide Nomination Figures In Day's Voting

(International News Service)
HARRISBURG, Sept. 14.—An estimated 1,000,000 to 1,250,000 voters went to the polls today in Pennsylvania's off-year wartime primary to select Republican and Democratic party nominees for the November general election.

Voting was confined largely to party-conscious voters, with the great majority of the approximately 4,500,000 eligible voters not exercising their franchise. Intra-party contests were few. The Republican vote was expected to be larger as the G. O. P. holds a registered majority of approximately 650,000 over the Democrats.

The polls in the 8,161 precincts in the state were open from 7 a. m. to 8 p. m.

In the race for superior court, the nomination of Judge Claude T. Reno, of Allentown, Republican incumbent, and Judge Curtis Bok, of Philadelphia common pleas court, Democrat, is assured as neither have party opposition. They will be opposed in the fall by Charles Palmer, Ridley park attorney, prohibitionist.

Over 67 Vessels Of Italian Fleet Now At Malta

(International News Service)
ALLIED HEADQUARTERS, IN NORTH AFRICA, Sept. 14.—Italian fleet units totalling more than 67 vessels have put into port at the British Mediterranean island of Malta, Allied officials confirmed today.

The vessels include five Italian battleships, eight cruisers, 19 submarines, 27 destroyers, six corvettes, one auxiliary cruiser, the hospital ship Toscana and small craft.

Italian Ships At Shanghai Scuttled

(International News Service)

NEW YORK, Sept. 14.—Japan's Domei news agency reported today that the luxury liner Conte Verde and the Italian gunboat Lepanto had been scuttled by their crews at Shanghai following the signing of Italy's armistice with the Allies.

Domei, in reporting the seizure of Italian vessels in Japanese and Japanese-controlled waters, also asserted that 17 other Italian vessels including six warships, were damaged in apparent attempts by their crews to prevent them from falling into Japanese hands.

The Domei announcements were reported by the office of war information.

Domei claimed that both the Conte Verde, a 7,765-ton vessel, and the Lepanto "are now being refloated."

Vote Is Heavier Than Forecast

Noon Survey Shows Considerable Proportion Of Vote Is Polled

POLLS WILL CLOSE AT EIGHT O'CLOCK

All this talk about an unusually light vote may have been a bit premature. At noon today the vote in the City of New Castle was higher than it has been at the same time in several elections and with fair weather prevailing it began to appear that the total vote would be much larger than has been anticipated.

Poll workers found their jobs much more pleasant today than in some previous elections. The warming September sun made it possible to be outside without danger of catching cold and the weather also brought out more voters.

Return Vote Count

The polls will remain open until eight o'clock tonight. Following that the boards will return their summaries to the Board of Elections in the office of William A. Eakin in the court house.

To all intents this is a local election. There is but one state wide office for which nominations are to be made and this is for Judge of the Superior Court. There is no contest in either party, the Republicans offering former Attorney General Claude T. Reno as their candidate and the Democrats, Curtis Bok.

The election today will nominate party candidates for the election in (Continued On Page Two)

AMERICANS ARE IN STIFF BATTLE

Secretary Knox Says Battle At Salerno Is Most Hotly Contested Landing

(International News Service)

WASHINGTON, Sept. 14.—Secretary of the Navy Frank Knox today declared that American forces which landed at Salerno in Italy were in a "good stiff fight."

Knox described the landing of the American Fifth Army at the point just below Naples in Italy as the "most hotly contested landing that Americans have yet made."

At the same time, Knox stated that the units of the Italian Navy which surrendered to the Allies "can be made useful."

Knox also pointed out that surrender of most of the Italian fleet would release units of the British Navy that had been assigned to keep Italian vessels bottled up in ports.

"The coming over of the Italian fleet clears the Mediterranean of any surface menace," Knox concluded. "But the Germans still can get their subs in there any time they desire. I said that surrender of the fleet clears the Mediterranean of surface menace."

Following the exercises, a reception will take place for families and friends of the graduates at the nurses' home, at the hospital.

Third War Loan Drive In County Takes Big Spurt

U. S. Steel Allocation Brings County Total Up To \$2,487,348 To Date

DRIVE WORKERS SPEED UP EFFORT

Lawrence County's Third War Bond drive got a magnificent lift today when the United States Steel Corporation announced that its subsidiary companies, the National Tube Company, with a plant in Ellwood City and the Pittsburgh Limestone Company, with quarries in the Hillsville district had been allocated a total of \$1,360,000 of the corporate bond purchases to apply on the county total.

Of this huge sum, \$1,100,000 is allocated to Ellwood City and \$260,000 is allocated to the Hillsville district. The corporate allocations to Lawrence County bring the grand total today up to \$2,487,348 or about 35 per cent of the quota set for the county, \$6,207,000.

Ellwood Speeds Drive

Ellwood City's quota is \$980,000 and the allocation of the National Tube Company means that the hustling metropolis of the southern end of the county goes over its goal immediately but R. C. Stiefel, Jr., chairman in Ellwood City said today that for the present it wouldn't be counted in Ellwood City's total. "We're going to raise our quota in (Continued On Page Two)"

NORTH PACIFIC ATTACK COSTLY

But "Nobody Has Yet Invented A Safe War" Comments Knox

By WILLIAM ZIMMERMAN (U. S. Staff Correspondent)

WASHINGTON, Sept. 14.—Secretary of the Navy Frank Knox said today that the air raid on the important Jap base of Paramushiru in the North Pacific Sunday was a costly venture but he then emphasized that "nobody yet has invented a safe war."

Knox made his statements at a news conference as he commented on the attack by American heavy and medium bombers on the Jap installations in the Kurile Islands.

Four of the American planes were known to have been shot down and six are missing. However, the raid still was successful because the navy reported that the Jap flyers got through to their targets and bombed two troop transports and three cargo ships of the enemy.

Knox was asked if the venture had not proved costly.

"Yes, he replied. 'That's one of those things. Nobody yet has invented a safe war. That's the chances you take.'

"Four of our planes are known to have been destroyed and six are missing. There may be some chances for the crews of the six missing planes. We don't know what happened to them. They just didn't return. That's pretty bad news up in those waters."

Clews Are Lacking In Bacon Murder

(International News Service)

HOLLYWOOD, Cal., Sept. 14.—Detectives seeking clews to the slotted slayer of David Gaspar G. Bacon, Jr., "Masked Marvel" of the movies, were baffled today as any audience attending the thriller serial in which the actor played the title role.

The meager clews uncovered by an autopsy surgeon and the police department's top investigators as they probed the murder of the "Marvel" slayer of David Gaspar G. Bacon, Jr., "Masked Marvel" of the movies, were baffled today as any audience attending the thriller serial in which the actor played the title role.

The actor stumbled from his tiny car Sunday and died to death in a Venice beachfield.

Congress Reconvenes Facing Many Issues

By ROBERT HUMPHREYS (U. S. Staff Correspondent)

WASHINGTON, Sept. 14.—Congress reconvenes today with conservatives still holding the reins on domestic issues but under circumstances likely to give the administration the upper hand on matters affecting military and foreign policy.

The fight on "bureaucracy" which the 78th congress launched with unprecedented vigor when it convened last January appears certain to continue unabated.

On the other hand, the recess which started in July, has greatly increased the probability that congress will adopt some sort of a

resolution committing this nation to participation in an organization of nations for the prevention of future wars.

Some Of Issues

Here is what is in prospect:
1. An immediate fight over the scheduled draft of fathers with opponents trying to block it by congressional pressure but with the administration considering a counter-punch in the form of a presidential recommendation for a total draft of manpower which might persuade congress to settle for the induction of fathers.

2. Two weeks of comparative inactivity in which administration leadership (Continued On Page Two)

Further Raids Indicated On Kurile Islands

Increasing Attacks On Japanese Northern Islands Are Now Certain

SHIPS ARE BOMBED IN MONDAY RAID

By WILLIAM ZIMMERMAN (U. S. Staff Correspondent)

WASHINGTON, Sept. 14.—Increasing raids on powerful Japanese positions in the northern Kurile islands on the road to Tokyo were in prospect today as it became evident that an American airfield has been placed in operation on Attu island in the Aleutians.

Use of Mitchell medium bombers in the latest raid on Paramushiru in which five Japanese ships and numerous smaller craft were blasted indicated that the planes were based on Attu.

The powerful enemy base of Paramushiru is located on the extreme northern tip of the Kurile island chain, some 700 odd miles from Attu and within the range of Mitchell bombers.

The Mitchells were joined by four-motored Liberators, apparently from another base to the eastward of Attu.

Attack On Monday

Confirming an earlier Japanese communique on the raid, the navy disclosed that the attack took place last Monday and was highly successful. One transport was set on fire and left sinking, another was damaged and his crew scored on three cargo vessels, one of which (Continued On Page Two)

DECLARES GREATEST BATTLE OF WAR IS NOW BEING FOUGHT

(International News Service)

NEW YORK, Sept. 14.—The British radio today quoted a report from an Exchange Telegraph correspondent from North Africa which compared the situation at Salerno with that at Gallipoli in 1915 in the first World War.

The Allies suffered a crushing defeat at Gallipoli.

The correspondent said the enemy was occupying high ground, as in the Gallipoli campaign.

Although he declared that the situation can be viewed with extreme confidence, he added that "still people must know that the greatest battle of the war is now being fought in the south of Naples, where at times the air is almost as populated as the ground."

The broadcast was heard by CBS.

(BULLETIN)

(International News Service)

ALLIED HEADQUARTERS IN NORTH AFRICA, Sept. 14.—Gen. Dwight D. Eisenhower announced today that reserves are being rushed to the Salerno bridgehead, where American troops are fighting a bitter struggle against the Nazis.

By PIERRE J. HUSS (International News Service)

ALLIED HEADQUARTERS, In North Africa, Sept. 14.—Fighting comparable to the bloody struggle at Gallipoli in the world war raged today at Salerno.

Troops of the United States Fifth Army which landed there and established a bridgehead six miles deep into the terrific resistance from German forces holding high ground behind the beaches.

Gen. Dwight D. Eisenhower announced the enemy had made a number of counterattacks and regained some of the ground lost in the original landings.

Grim Struggle Raging

Allied headquarters made no secret of the fact that a grim struggle is raging. But at 4 p. m. (11 a. m. EWT), the latest word was that the Americans at Salerno are "solidly emplaced and intend to remain."

The British Eighth Army meanwhile captured the Italian east coast port of Bari and Cosenza, inland capital of Calabria province.

At the same time, however, General Dwight D. Eisenhower's headquarters reported that Germans around Salerno are counter-attacking. (Continued On Page Seven)

Germans Claim Mussolini Heads Puppet Regime

(International News Service)

LONDON, Sept. 14.—The puppet fascist national government established by the Nazis after capitulation of Italy to the Allies now is under direct command of former Premier Benito Mussolini, the German radio asserted today.

The Germans founded the fascist regime in the name of Mussolini immediately after disclosure that the government of Premier Marshal Pietro Badoglio had signed an armistice.

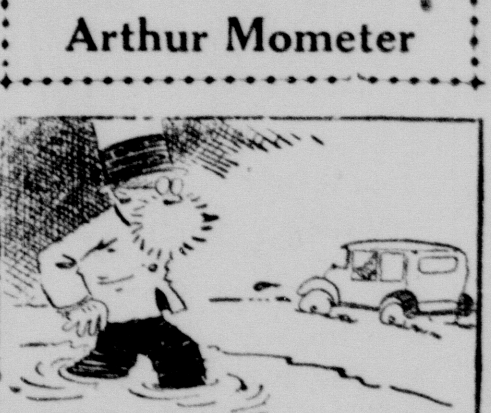

The Zurich newspaper Die Tat printed an apparently Nazi-inspired dispatch from the Italian frontier stating that Mussolini, purportedly "liberated" from confinement somewhere in Italy, had arrived at Cremona, in the north. There, it was said, Mussolini joined Roberto Farinacci, former fascist party secretary who took over temporary leadership of the new fascist regime.

Former fascist officials, according to the report to Die Tat, again are ruling Milan, Turin, Genoa, Novara and Cremona. All the cities are under German control. The fascist newspaper Regime Fascista was reported to have resumed publication in the north.

Mussolini as his first official step, the Die Tat dispatch added, probably will denounce the capitulation of the Badoglio government and issue a proclamation declaring the reign of the House of Savoy at an end.

The broadcast was heard by CBS.

The candidate is sighing with relief, and with anticipation quite a lot. Tonight they'll know just what is what and why and some will win and some, of course, will not. The hectic days of shaking voters' hands, and passing out cigars with gushing smiles, and promising the folks a better deal and driving automobiles mile on mile, are done and now the voters have their chance, this is the time the voters have their say, the ballots drop and hopes are holding high, the weather is bright and seventy-four today.

Living Cost To Be Rolled Back

Manager Of O. P. A. Says Cost Of Living To Go Back To Fall, 1942

PRICE CEILINGS ON MANY FOODS

By PHILLIPS J. PECK
(N. S. Staff Correspondent)
WASHINGTON, Sept. 14.—Chester Bowles, general manager of OPA, announced that the government is "ready to go" on a \$100,000,000 program to roll back the cost of living to levels of September, 1942.

Bowles outlined the program in detail at a news conference called to discuss his first "progress report" since taking over the operating reins at OPA last summer. The new program has been approved by Judge Fred M. Vinson, stabilization director, and will include participation by both OPA and the war food administration. Through the use of transportation subsidies, government purchase and resale methods and additional subsidy roll-backs at the consumer level, WPA and OPA hope to effect a 23 reduction in the cost of living index by October or early November.

The OPA general manager listed the following new price ceilings which the program contemplates: Apples, nine cents a pound, compared to present prices of from 10 to 15 cents; onions, six cents, against current prices of eight cents; oranges, 9.7 cents, compared to the present 11.2; potatoes, 3.5 cents, against 4 cents per pound; current prices; peanut butter, 26.5 cents, against the present average of 33.3; lard, a reduction of one cent per pound; shortening, a decrease of one cent per pound.

Moreover, Bowles disclosed, a program also has been completed which he said will result in a 15 per cent reduction in the price of winter fruits and vegetables below the levels of last winter.

"Vegetable and fruit prices were

up 60 per cent in the winter of 1942 and that got us into a lot of trouble," he explained. "The total cost of food as a result went up 12 per cent and drove the cost of living index up 62 points. The leap in the index definitely was fruits and vegetables."

Hopes To Lower Index
Bowles said that in addition to the anticipated cut in the cost of living index through the new stabilization program, he hoped to lower the index another point at least through better compliance with and enforcement of OPA regulations.

He said that the \$100,000,000 which will defray the cost of the program for about a year, will be obtained from currently available funds of the Commodity Credit Corporation and the Reconstruction Finance Corporation. It will be unnecessary to ask Congress for an additional appropriation at this time, he emphasized.

Later on, he indicated, Congress may be asked to appropriate funds for subsidy roll backs on other products as the pressure on price ceilings increases and production is threatened. Milk is one of these products, Bowles said.

east bank. This victory cut off four of the five trunk lines supplying the Nazi stronghold.

The decisive break-through in the eastern and southeastern environs of Bryansk came when the Soviets blasted a path, over the bodies of 2,000 slain Germans, through stubbornly defended barriers to the east bank of the Desna.

Seizure of the vital railroad junction stations designated as Bryansk No. 1 and Bryansk No. 2 on the east bank climaxed a Russian streamroller advance of six to nine miles which enveloped more than 30 localities on the Bryansk front.

The Soviet advance to the gates of Bryansk, which is already flanked on the north and south, was accompanied by sweeping Russian gains in the northern Ukraine and on the southern front skirting the Sea of Azov. In all sectors, the swiftly advancing Russian liberated more than 300 additional towns and villages in battles which added nearly 4,000 to the huge toll of Germans killed in the current Soviet offensive.

South of the Bryansk front, Soviet forces within 80 miles of the middle Dnieper Nazi stronghold of Kiev liberated 220 towns in advances ranging up to 10 miles toward the rail town of Nezhin, Priukov and Roslav.

exploded. In addition, numerous small craft were strafed and many set on fire.

More than 25 Japanese Zeros intercepted the American planes, the navy reported, and in a 50-minute battle, at least 10 of the enemy planes were shot down. Ten American planes were lost, four going down in the battle and six others failing to return to their bases.

The attack marked the fourth time that American planes have raided Japanese naval and air bases in the northern Kuriles, the others taking place on July 10, July 19 and Aug. 12.

Reconquering of Attu from the Japs last May, placed American forces within striking distance of the northern Kuriles and now that a landing field there apparently has been completed, further and heavier blows are expected from U. S. land-based planes.

During services, appropriate selections were sung by Mrs. Howard Glenn and Mrs. Lyle Dight, accompanied by Mrs. Lois Dice.

Palbearers were Henry, Llewellyn, Harvey, Walter and Montgomery Rogers and Don Burns. Elders of Plaingrove Presbyterian church were flowerbearers.

Interment was in Plaingrove Presbyterian cemetery.

C. M. Cubbison Interment Here.
Following funeral services for Clifford Milton Cubbison of Gibsonia, at 2 o'clock this afternoon at the Douds funeral home in Aliquippa, burial will take place here at 4 o'clock in Greenwood cemetery.

Rev. Adolph W. Kahl, of All Saints Episcopal church, Aliquippa, will officiate at the funeral service.

Mr. Cubbison died Saturday at St. Barbara's Home, Gibsonia, where he was employed, of a cerebral hemorrhage. He was born in New Castle May 7, 1874, the elder son of the late William and Emily Catherine Clifford Cubbison.

He had been a resident of Aliquippa for six years before he left there over a year ago to go to St. Barbara's Home. He had previously been manager of the sales department of the Jewel Tea Company in Chicago for some years. During World War I he engaged in sales work for the United States government in France and other European countries.

Surviving are two sisters, Mrs. Alice Cubbison and Mrs. L. H. Pyle, both of Aliquippa, a nephew, William H. Pyle, of Ben Avon; and two cousins, Mrs. Ralph C. McGoun and Arch Cubbison, both of this city.

Mrs. Fulmore Funeral
Funeral services for Mrs. Bihla Fulmore, 701 West North street, were held Monday afternoon at 2 o'clock at St. Paul's Baptist church with Rev. U. S. Munnerlyn, pastor of the Second Baptist church, in charge.

Music was by the senior choir of St. Paul's church.

Palbearers were Archie Eggleston, Mose Morris, Herbert Simms, Jasper McBride, John Kimbrough and Adrian McKeevey.

Interment was in Greenwood cemetery.

Mrs. Fulmore, who died last Friday evening, was born in Durham, N. C., on April 7, 1883, daughter of Hiram and Jane Jones. She had been a faithful member of St. Paul's church for 18 years and was a member of the choir and Pastor's Aid society.

Survivors are one son, Edward Jones, and her daughter-in-law, Odessa Jones, with whom she made her home at 701 West North street; her husband, John Fulmore, and two sisters, Mrs. Roberta Oldham and Mrs. Mozella Williams of Durham, N. C.

Wilson Funeral.
Funeral mass for Edward Terry Wilson, Hoytdale, was celebrated Monday morning at 9:30 o'clock in St. Theresa's church, Hoytdale, with Rev. Fr. Frederick Atkinson as celebrant.

With this lift to the bond drive here the bond solicitors went out today with new enthusiasm. The quota of \$640,000 begins to look smaller and with a few more heft cuts at it like the one today, the county will begin to see down over the brow of the hill.

Tonight on Boyles Field there will be a bond rally as a part of the bond demonstration. At eight o'clock there will be a bond meeting in the Lincoln-Garfield school building for the fifth and eighth wards. On Thursday night there will be a safety rally and bond rally held by the Medusa Portland Cement Company at the Ellwood City Rod and Gun Club.

strated enemy-held villages and an airport at Selaru in the Tenimber Islands.

Attack bombers swept the northeastern New Guinea coast from Saidor to Finschhafen, medium and heavy bombers destroyed five loaded barges and a power launch. They also struck at the airdrome in a sweep over Cape Gloucester, New Britain, as attack planes bombed installations at nearby Gasmata.

Ten Jap dive-bombers with fighter escort caused minor damage and some casualties at Morobe, New Guinea anti-aircraft guns shot down two of the raiders.

In the Solomons, Allied medium bombers, dive-bombers and Torpedo planes twice attacked enemy installations at Vila and vicinity on Kolombangara Island, causing fires and explosions. Fighter planes destroyed a barge and Jap fuel dump at Vanga Vanga. One Allied plane was lost.

Light naval craft on night patrol damaged five enemy barges in Kula Gulf and suffered minor damage from gunfire from the barges and enemy shore batteries.

U. S. SUBMARINE REPORTED LOST
(Continued From Page One)

sumed to be lost is the U. S. Grenadier, which was completed on May 1, 1941, at the Portsmouth, N. H., Navy yard.

Crew Presumed Lost
Most of the crew was also presumed to have been lost. An undersea vessel of the Grenadier type normally carries about 65 officers and men.

It was indicated that there also were some casualties when the two subchasers were sunk in the Mediterranean area on Aug. 23, since the Navy said that the next of kin of all casualties have been notified.

Twelfth Sub Lost
The Grenadier was the twelfth U. S. submarine lost since the outbreak of war.

It was the fourth time since Pearl Harbor that Funafuti had been bombed. On only one of the raids were the Japs able to cause any casualties at that base.

The Grenadier was a 1475 ton vessel, 220 feet long with a 27 foot beam. It had a speed of 21 knots when surfaced and had ten 21 inch torpedo tubes.

The subchasers reported lost apparently were engaged in convoy duty in the Mediterranean when they were sunk. Such vessels normally carry a crew of about 27 men.

CONGRESS RECONVENES FACING MANY ISSUES
(Continued From Page One)

ers hope that Gen. George C. Marshall and Admiral Ernest King can convince the senate and house military affairs committees that fathers must be called, and plans can be made for adoption of a foreign policy resolution.

3. A tax bill in response to President Roosevelt's request for an additional 12 billion dollars in revenue annually. Most members predict, however, if that tax sum in increased taxes is voted the administration will have come off well.

4. Another fight over OPA rationing and pricing policies when the question of subsidies for producers comes up later this year.

The imminence of a fight on the drafting of fathers is increased by the fact that the order for their registration becomes effective only 16 days hence. To block it, congress will have to work fast.

It is not likely that the question of a foreign policy resolution will be resolved for some weeks. There are resolutions pending in both the senate and house, but there is now talk of redrafting them to avoid any possibility of acrimonious debate.

WHY TAKE HARSH LAXATIVES?
Simple Fresh Fruit Drink Makes Purgatives Unnecessary for Most People

Here's a way to overcome constipation without harsh laxatives. Drink juice of 1 Sunkist Lemon in a glass of water first thing on arising.

Most people find this all they need—stimulates normal bowel action day after day!

Lemon and water is good for you. Lemons are among the richest sources of vitamin C, which combats fatigue, helps resist colds and infections. They supply valuable amounts of vitamins B, and P. They pep up appetite. They alkalize, aid digestion. Lemon and water has a fresh tang too—clears the mouth, wakes you up, starts you going.

HERSHEY AUXILIARY

OPENS FALL SEASON

Hershey Auxiliary launched their new season Monday night, when they met in the parlors of the First Presbyterian church with the president, Mrs. William Margraff, presiding. Mrs. P. H. Bridenbaugh led the devotional period on the subject "Beginnings."

Mrs. J. A. McNeill, program chairman, presented Mrs. Lester Hauschild who spoke on "Youth and Youth Guidance," pointing out that character is moulded in the home, church and school. All joined in singing "Faith of Our Fathers" at the close.

Mrs. W. A. Woodworth, chairman of finance, outlined work for the organization during October.

Visitors welcomed included Mrs. Cooper, Mrs. Kenneth Beck and Mrs. George Hamilton. The latter, a former member of Hersheys, recently returned to this city from Beaver, and re-joined. Mrs. A. B. Foster, a member who has been at Camp Meade for the past year, was also a guest. She gave an impromptu talk on "The Chapel of Camp Meade."

A social period ensued, with the following hostesses serving: Mrs. John Waddington, Mrs. C. C. Green, Mrs. George Ramsey, Mrs. John Elliott, Mrs. William Frantz, Mrs. H. W. Lightner, Mrs. Roy Snyder, Mrs. W. D. Kelly, Mrs. John Park, Mrs. Lucien Black and Mrs. W. R. Campbell. Pouring at the pretty arranged table were Mrs. J. J. McJivaine and Mrs. William Margraff. October 4, members will meet at the church for a similar event.

The Parent Problem

By Gary C. Myers, Ph. D.

COLLEGE BETTER THAN JOB

The young woman who has college ability, who did average or above-average work in high school, should, if possible, go to college or enter nurse's training. Those young women who have completed one or more years at a liberal arts college but have not graduated, might well consider shifting to special training in nursing or teaching. There's a serious shortage in both these fields and will be for some years following the war.

Some young women who are promising material for college freshmen, or have completed one or more years at college, may be tempted to keep or accept a high-paying job. Perhaps they and their parents, lured by big pay, will kid themselves that quitting college for work is being patriotic. Excepting in a few rare instances involving highly technical skills, this is merely an attempt to justify their wish to win more money—what the psychologist calls "rationalizing."

A few of these young women also reason that they will earn now while the earning is good and save enough money to put themselves through college later. An occasional young woman will probably do just this but not many will. Very few know anything about self-denial and saving for such a definite future plan. Then, too, after a few more years on the job, they will feel older than the average college freshman, or student of any other class they might return to, and find it much harder to return. Besides, they will have been so accustomed to having plenty of money to spend and more money in sight, that entering college where their spending money may have to be limited or will have to be given them by their parents will be a further barrier.

Any young woman who is college material and can get the money should, by all means, go to college and do her very best there. She should feel this about the most patriotic thing to do. Obviously there will be a drop in the number of college-trained youth when peace comes, just when our Nation needs them most. As never before, we need for future days as many college-trained young people as possible. We need to keep alive the best learning and culture our higher educational institutions can help produce.

I have prepared a selected list of books about life at college and making good at college, which list may be had by writing me at 235 East 45th street, New York City enclosing a three-cent stamp on a self-addressed envelope.

Solving Parent Problems

Q. I have a boy four years old and a girl three. Should he be forced to let her play with his toys?

A. No; see that she does not use his toys without his permission and set the stage so that he will gladly share some of his toys with her. Show strong approval when he does.

Looking At Life

By ERICH BRANDENIS

Bruno L. Jellinek is dead. You never heard of Bruno Jellinek.

Neither did I until I read his obituary in the paper.

The thing that attracted my attention wasn't that he was an officer in the Austrian army in the first World War and that he was captured on the Russian battle front.

Nor was it that he escaped and made his way back to Vienna.

Nor that he came to the United States in 1941 via Morocco and Cuba and became well to do and happy once again.

The thing that attracted my attention was the headline in the New York Times:

"First to Introduce Bananas in Russia."

There's something about that headline which we might all think about.

This war is filled with courage and heroic deeds.

Medals and service crosses will be distributed by the thousands.

We glorify our fighting men, and for one brief moment in the cycle of time, they occupy the limelight, are dined and wine—and then come reality.

The war is over.

What next for the heroes? What became of the brave men of the first World War, or for that matter of those of the Civil War and other wars before?

"First to Introduce Bananas to Russia."

Bruno Jellinek apparently did not rest on his laurels.

He realized that Fame is a lovely sensation while it lasts, but that grocers and shoemakers are not impressed by medals or ribbons.

There will be shouting and great joy when the boys return.

They will march back in triumph to their home towns and everybody will fill them with oratory and praise.

But soon the tumult and the shouting will die, the uniform will be put away and the need to make a living will arise.

And when the end comes, our hero will be judged not by what he did at Guadalcanal, and Alamein and Messina, but by the place he made for himself in his community and by his every-day accomplishments.

I think Bruno Jellinek did well—"First to Introduce Bananas to Russia."

HINTS AND DINTS

Sun sets tonight 7:12. Sun rises tomorrow 6:40.

Now that travel has become so exciting and inconveniently difficult, more people than ever before feel that they would like to go some place.

Mentally ill is another polite way of saying people are crazy.

It wouldn't be fair to have big bills for the soldiers to pay after the war is over. Give this some serious thought.

A Pittsburgh woman sued for a divorce from her husband because he blackened her eyes after she questioned him about running around and staying out late at night. . . . Th' brute!

TRY THIS FOR YOUR SUMMER VACATION

A man was interested in buying a new car, and after looking over the 1942 models the neighborhood dealer (who was an old friend) had subject to priorities, he asked if he could take one to show to his wife.

The dealer knew it would be a cash sale, so he gave his friend permission . . . so, leaving his old car, he drove away in the new one and when he didn't return before closing hours, the dealer became worried.

Days went by . . . the dealer didn't report the missing car but was just on the verge of so doing when he walked his old friend and laid the money for the new car on his desk.

"Where in the world have you been, John?" asked the dealer. "You took that car out of here two weeks ago and whenever I called you on the telephone no one answered. To tell you the truth, I was just about to report the incident to the police."

"Why, Bill, you said I could take the car to show to my wife. I distinctly remember your saying it would be O. K.—I thought you knew she was visiting her folks out in Los Angeles. . . . she's been there for the past two months!"

Thinking twice before you speak and it will do no harm to keep thinking while you are speaking.

Adolf could be charged by the people who fell for his stuff with not having lived up to his speech. Same sometimes happens to our politicians.

Some people still think the divorce laws are too strict. They have to have a pretty good reason and some don't have it.

Mrs. F. D. R. knows geography like a map maker. She can always think of some place to go.

There is no democracy without understanding, and no understanding without tolerance.

Platonic friendship: A man who wants home-cooked meals and such favors without paying for them, and a woman who keeps hoping.

Nothing we can think of at this time exceeds the thrill of pulling an extra cover in the early hours of the morning.

Very often people have good reasons for not answering questions, especially if they are asked by a policeman.

This changing world! "Butterfingers," mother used to say when one of the children let a dish fall. That couldn't happen under the present scarcity.

A new Pullman car with triple decks is to be produced. It was hard enough for people to get into the double deck.

To many people the present period will be remembered in history as the time Ham and Eggs were divorced.

The man who pays as he goes does not go at such a rapid pace.

Consistency is a jewel, but so many people do not care for jewelry.

Sometimes one sees a woman who looks pretty when she is angry.

"Darling," said the mother reproachfully, "you came in awfully late last night. I'm afraid I'm dreadfully old-fashioned, but I should like to know where you go."

"Oh, that's all right, Mother. It's no military secret. . . . I dined with Sergeant . . . oh, well, you don't know him, and we went several places I don't suppose you've been to, and finished at a queer little club—I forget its name, but it's in a cellar somewhere. It's all right, isn't it, mother?"

"Of course, darling. It's only that I just like to know."

ELIMINATION OF "O. K."

Let's form an association for the elimination of "O. K." from all formal conversation—business and social.

Realizing how securely this word, as well as "yeah," "nope" and other such "modern" slang phrases are enshrined in our language—even in that of our "best sets," I have long hesitated to make my attack on them. But a trip to one of our better shops convinced me that the time has come to do something. It all happened this morning when I had to await a receptionist's repeated calls to her switchboard. It wasn't the waiting that irritated me. It was her telephone technique. She was "easy on the eyes," efficient in handling her manifold duties; but the "O. K." "yeah" and "nope" actually hurt my ear-drums.

I wondered why the management did not tell her how much dignity counts in business. . . . and that "O. K." is neither dignified nor refined. It has been grossly overworked and over-exaggerated in its importance as an indispensable Americanism. "Yeah" and "nope" are out of the question, always.

Question: My son is very fond of a young girl of about his own age. . . . For a few days while we are away on our vacation, he would like to have her visit the hotel where we will stay. Should I write to her? Or should I write to her mother, whom I have never met? And should I offer to pay for her hotel room?—Mrs. J.

Answer: Have your son write to the girl, herself, telling her of your plans for her proposed visit. Inasmuch as her mother has never met you, she may hesitate to let her daughter go on this trip. To establish an acquaintance with the mother, you should write her a letter, telling her that you would like to have her daughter visit you, explaining that your son has written to the girl. This arrangement will leave the mother with an easy mind about her daughter's welfare. Have her room charge put on your bill, that the clerk may so inform her should she offer to pay. I presume your son need not be told to meet her train when it arrives and to take care of her baggage. And he will, of course, see her off when she departs, no matter how early the hour.

Tomorrow — Telling War Horror Stories.

WHAT IS YOUR PERSPECTIVE?

Just how do you stack up? Do you measure your life in terms of years or in the quality and value of your thoughts, words and deeds?

More years are not the measure of a man. Years do not always indicate wisdom or accomplishment. Your value in the scheme of things depends on what you have accomplished in the span of life allotted to you.

To get a true picture of yourself, you must measure your accomplishments impartially and without self-favoritism.

Try to understand your life, your worth, your value in relation to the whole pattern of life. . . . to all of humanity. . . . not only in the present but in relation to the infinite. Discount the good with the evil. How much happiness have you brought to others? How much pain? How much have you done to benefit mankind? How much distress have you caused?

How much nobility of thought and deeds have you inspired in others? How much that was ignoble, degrading and sordid?

Every human being that was ever born or that ever will be born on this planet was given the breath of life—a soul—a greater or lesser degree of intellect for a very definite purpose. . . . a purpose that fits into the great cosmic plan of humanity. It makes no difference whether you call it evolution or God.

Every thought you utter. Every deed you accomplish—good or bad—is like a pebble tossed into a pond. The ripples spread ever onward and outward toward the sun. Your thoughts and words live forever, ever-expanding and merging with the thoughts and deeds of others.

Just how do you stack up? Women are even going to play football this fall.

It looks like the nation's foreign policy is going to a policeman.

A city boy, visiting his country cousin was walking through the pasture when he heard a peculiar buzzing sound. He looked around to find out what it was. "Come away from there!" the cousin shouted. "It is a rattlesnake! If you go near it it will strike."

"Gosh," said the city boy, "do they have unions too?"

Saving the lives of our boys is the most important thing in this war. Give this some serious thought and buy all the War Bonds you can.

"Mr. Patricola, I ordered a dozen oranges from you today and when I took them out of the sack, I discovered that you sent me only eleven. How do you account for that?"

"Now, now, Missus. I no—a cheat. One of them was so bad that I took the liberty of throwing it away for you."

Hints and Dints—Yellow Sheet—7. The dark side is that one day after peace comes we'll all be dodging cars doing 70 m.p.h.

The 40-year-old husband seldom philanders. If he tried to "make" some young thing, she'd say: "Scram, grandpa."

Some of our best minds are beginning to feel that almost any coming week the world may be plunged into peace.

It's all right to give credit where credit is due, but it is not so good to give it where people don't pay.

If reports are true, the national income is going up by leaps and bounds.

Kids going to school now are learning a lot of history they will not have to learn out of books.

Inside Washington

Washington Misses Evalyn Walsh McLean
Social Life Is Lacking Without Hostess
Domestic Problem Biggest Post-War One

By HELEN ESSARY
Central Press Columnist

WASHINGTON, Sept. 14. Some of Washington's most distinguished citizens are pretty annoyed.

Mrs. Evalyn Walsh McLean won't come home. She won't come home and give a party. A big party, with dinner and everything.

Mrs. McLean has been gone for weeks now. It was very inconsiderate of her in the first place to take herself out of Washington to Hollywood or wherever it is she went. In the second place, it is very inconsiderate of her to stay so long. For with the capital's leading hostess away, how in the world are you going to see anybody? It's an awful nuisance to give a party yourself. Such trouble to call people up. Nobody's ever home. And then rationing is a fearful bother. And servants are difficult, excessively difficult. It was much simpler and far pleasanter last winter and spring to let Evalyn McLean do your entertaining for you.

She'd collect all the Right People at Friendship, her place in Georgetown, at one of her regular dinners. You could find almost everybody of any importance there in the most agreeable setting. Outdoors, moon over the sunken garden. Indoors, fat sofas and bright lights, good food and movies, music and so on. You know, for example, if there was a little man you wanted to take up with a certain cabinet member or war effort prima donna you knew ahead of time that you needn't bother trying to find a Big Personality in his office. You'd be certain to "see him at Evalyn's" some Sunday soon. Useful institution, Friendship.

But these were the happy days before Mrs. McLean decided to go off to that dreadful west. Her Washington friends said it was fine for Evalyn to be on the receiving end instead of the giving end for a change. But there is no point in over-doing this vacation-from-Washington idea.

The swimming pool at Friendship still is available to friends of Mrs. McLean. Quite a crowd has been going there on hot afternoons to splash about and gossip. But it's been like going to call at a deserted mansion. Mrs. McLean should really come home. This nonsense has lasted long enough. That's the consensus of capital opinion.

Certain cynics think it time we changed our national symbol from Uncle Sam to Don Quixote.

Uncle Sam of a generation or two ago was a sharp trader. He's lately grown into a swashbuckling knight who charges at windmills. A reckless fellow who believes he can turn the tide of despotism with his own lance. Swish! swish! goes Uncle Sam Quixote! Charging along the hills and dales of the entire planet.

The sentiment of America, so the second kind of cynics declare, is as shrewd a trademark as the dollar sign. Why squirm at the suggestion "Be like the British—realistic"? The United States has gone right far on sentiment, hasn't it? It has most of the money of the world in its vaults, and don't forget those billions of other nations' dollars deposited in this country waiting the chance to be spent here after the war.

Another thing, don't worry too much about how the United States will get on with Europe, Asia and Africa and the people thereof, come the post-war world. Smart Washington opinion preaches that Russia, Britain, China, South America and even the enemy countries will be too busy straightening out their own affairs once the peace treaty is signed to be of any immediate trouble to each other or us.

The dangerous post-war problem of the United States will be a domestic problem. That old boy—unemployment. The war momentarily as put the problem of unemployment out of mind. The war training camp has sorted, fed and trained millions of pre-war unemployed. War industry plants have made other millions prosperous.

After the war, however, in the let-down of a sudden peace, who is to be done with the hordes who will be looking for jobs in the cold gray dawn of the morning after?

Capital won't be able to handle this unemployment problem alone. Nor will the government. There has to be a combination of capital and government to take up the slack that is certain to occur during low production periods. If capital and government cannot get together, then prepare for socialism, some prophets say.

The World and the Mud Puddles

PROPAGANDA IN REVERSE

The Japanese propaganda minister, in a broadcast to the people of Nippon, warns them that the "American enemy" is resourceful and has staged a remarkable comeback. He further warns of bombings and other attacks upon the Japanese mainland. In brief, he presents a rather doleful picture.

It is interesting to note this about-face on the part of the Jap propagandists. Obviously, it had to come sooner or later for their chief line of propaganda, since the war began, has been the regularity with which they have "destroyed" the American fleet and air force. This has occurred, in their broadcasts, no fewer than four times and it is but natural that some explanation for the continuation of the war should be forthcoming. "Destroyed" fleets do not suddenly rise and fight again.

The Japs, however, are not the only Axis members who have had to revise their propaganda. A year ago the German radio was saying: "On the whole of the eastern front, the fuhrer obviously can advance when and where he chooses." Radio Rome was proclaiming that "not even the R. A. F. can venture over the Mediterranean." Italian supplies reach Libya without trouble while no British convoy may cross the Mediterranean unless it wants to find itself at the bottom of the sea.

If the American Navy, "destroyed" at least four times by the Japs, and the British Navy which, a year ago, was terrified by the Italians, can so completely turn the table in twelve months, the future takes on a bright hue, indeed.

THE UNCONQUERABLE
Let the tyrant and the pagan learn this truth, as soon as they must. There's no strength in man's dominion quite so strong as being just.

Let the Jap and Hun discover, as ere very long they will, There's more might in honest dealing than in power to crush and kill.

They have laughed at us for seeking happier goals than they could find. They have sneered at us for teaching it is noble to be kind. For the pagan and the tyrant never yet have understood That ten thousand flaming cannon cannot make an evil good.

They've no code save bursting powder and no creed save that of might. In their teaching all is terror, with no hint of what is right. But one fact they have forgotten, which is: force however strong, Save it's based on truth and honor, cannot prosper here for long.

Tell the tyrant and the pagan, tell the Jap and tell the Hun They are destined for destruction although long the war may run. Be it one year or many, however strong they grow, To the side that fights for justice is the victory sure to go.

BUSY BEES
At this time of the year the bees are busy storing up honey. They gather the materials when they can get them. They make the honey and put it up in packages so that it will keep.

They seem to know that they will need it for food later on. We should be busy storing up vitamins. It is one vitamin which can be stored away for future use. If we expose our skin to the rays of the sun at noon, it will absorb enough of them to store away quite a lot.

These ultra violet rays will not go through glass, so we should be in the open air to get the benefit. It is not necessary to expose the whole body to the sun. SUBSIDY ISSUE BEFORE CONGRESS

O.P.A. Plans To Hold Line
Against Inflation If
Given Tools

By PHILLIPS J. PECK
(I. N. S. Staff Correspondent)

WASHINGTON, Sept. 14.—The controversial subsidy issue was laid squarely before the reconvening congress today with the office of price administration pledging to hold the line against inflation only if given "the tools with which to hold it."

The OPA asserted that the objective of vigorous price control and full production of industrial and farm products can be attained only through the "skillful use" of subsidies.

Chester Boyles, OPA general manager, specifically asked congress to approve "production bonus" payments to solve the present acute milk problem which threatens to result in consumer rationing of milk.

Although no formal program was presented, it was estimated reliably that a milk subsidy may cost approximately two hundred million dollars a year. Boyles gave notice that there would be other commodities in the future that will require subsidization.

As a prelude to the request for subsidies, he notified congress that its mandate for a reduction in living costs to the September 1942 level was being complied with a cost of approximately one hundred million dollars. A further drop of one half of one percent in the cost of living index in August was reported.

"However, we must be realistic," Boyles said. "We can only hold the line if we are provided with the tools which to hold it."

Anglo-American Soviet Meeting Plans Progress

By KINGSBURY SMITH
(I. N. S. Staff Correspondent)

WASHINGTON, Sept. 14.—Plans for an Anglo-American-Soviet meeting of foreign ministers are understood to be nearing completion today.

The preliminary phase of the discussion which have been held in London to arrange for the meeting has been completed. The proposed date and location of the conference is now before the three governments concerned for approval.

It is expected that the meeting will be held next month, possibly in London.

Ivan Maisky, Soviet deputy foreign commissar, who participated in the preliminary discussions in London, is understood to be returning to Moscow to consult his government on the final arrangements for the conference.

M. Bogomolov, Soviet ambassador to the exile governments in London, also is returning to Moscow for consultation in connection with the delicate problems of eastern Europe that will come up for discussion at the conference.

Light Vote Cast In Philadelphia

(International News Service)

PHILADELPHIA, Sept. 14.—Quaker City voters were casting one of the lightest ballots in a dozen years at today's primary election for mayor of Philadelphia.

The reasons for the light turnout were listed as lack of opposition to both major party candidates, general apathy, and the inability of thousands of war workers to get to the polls at an early hour.

The nominations, who are assured of the city council, are William C. Bullitt, Democrat, and Bernard Samuel, Republican incumbent. The ticket includes elections for city council offices, the entire membership of city council, and judges and magistrates.

Army and Navy leather requirements this year are expected to call for more than 10 million cattle hides, two million calfskins, eight million shearings and hundreds of thousands of lambskins and horsehides.

SCHOOL IS BURNED

(International News Service)
UNION CITY, N. J., Sept. 14.—A six-alarm fire, one of the most spectacular in Union City's history, early today swept the four-story brick building of the Holy Family parochial school, leaving the structure an almost total loss.

The building is on extensive grounds adjoining the Passion Play auditorium, yearly scene of religious pageants which have become widely known. The proximity of the two structures gave rise to early reports that the auditorium itself had burned down but desperate efforts of fire companies from Union City and four adjoining communities confined the blaze to the school structure.

Once upon a time, in England, letters that were marked "post haste" were usually given to mounted mail carriers for delivery.

Women Who Suffer from SIMPLE ANEMIA

Here's One Of The Best Ways To Help Build Up Red Blood!

You girls who suffer from simple anemia or who lose so much during monthly periods that you feel tired, weak, "dragged out"—due to low blood iron—start today—try Lydia E. Pinkham's Compound (with added iron)—one of the greatest blood-iron tonics you can buy to help build up red blood to give more strength and energy—in such cases.

Taken as directed—Pinkham's Tablets are one of the very best and quickest home ways to get precious iron into the blood. Just try them for 30 days—then see if you, too, don't remarkably benefit. Follow low label directions.

Restaurants, like housewives,
are known
by the "POINTS" they serve

RESTAURANT owners and housewives know from experience that ration points are just as necessary ingredients in wartime menus as money. . . . They know, too, that only strict accounting of these two items provides a popular bill of fare.

That's why the well-managed restaurant uses a National Food and Beverage Checking Machine in the kitchen. Here an item-by-item check is made of each serving on your waiter's tray . . . and you receive a guest check which shows in unchangeable, easily read figures the amount charged for each item served.

At the same time that these figures are being printed for your convenience and protection, the National Food and Beverage Checking Machine sets up controlling facts and figures from which management can check all food and beverage sales.

This is only one of many mechanized systems built by National to provide protection over money and records—for industry, business, government and the public. . . . An adequate supply of used Nationals is available for business needs and National Accounting-Bookkeeping Machines can be secured by essential business through priorities.

Demonstration On Bombs Is Arranged

Methods Of Combating Incendiary Bombs To Be Shown
At Boyles Field

Arrangements have been completed for a demonstration of the latest methods of combating incendiary bombs, which will take place at 8 o'clock this evening, immediately following the close of the polls, at Boyles Field.

The demonstration will be under the auspices of the Park Avenue Auxiliary Firemen and has been arranged for the benefit of air raid warden, fire watchers and auxiliary police of the district.

It will be staged under the supervision of Merle Brunton and William Bowen, and the public is urged to attend.

WAR PRISONERS RETAKEN

(International News Service)

DALLAS, Tex., Sept. 14.—Two German prisoners of war were back in custody today after eight and half hours of freedom.

The pair, Claus Dieter Martens, 21, and Bernhard Zirkel, 24, were recaptured by an army private after they escaped from an internment camp near Austin, Tex.

R. G. Danner, Dallas FBI chief agent, said the capture was made by Pvt. John Donnell: who was on guard duty at a bridge.

Bishop Of Diocese To Be Consecrated

Delegation From New Castle
To Attend Services In
Erie Thursday

Rev Robert M. C. Griswold, rector of Trinity Episcopal church, and a delegation from New Castle will attend consecration services at St. Paul's Episcopal Cathedral, Erie, Thursday morning at 11 o'clock for Rev. E. P. Wroth of Franklin, bishop-elect of the Episcopal Diocese of Erie.

Mr. Wroth will be consecrated the third bishop of the Erie Diocese. He succeeds Dr. John C. Ward who retired recently after 20 years as bishop of the Diocese of Erie.

Dr. Ward arrived in Alaska about a month ago where he will work as a missionary around the town of Seward as rector of St. Mark's Parish. Seward, Dr. Ward who served as a chaplain in World War one, is located near an army camp.

Bishops and clergy from neighboring dioceses will be present at the consecration.

Mr. Griswold will go to Erie on Thursday morning to attend a clergy convention.

LONG on Expenses? SHORT of Cash?

TODAY'S increased cost-of-living and the new Pay-As-You-Go Tax leave a lot less from each pay check for everyday needs. And when expenses like dental and medical care, house repairs or insurance premiums come along, they put a dent in the budget. In such cases, have you ever considered the advantages of a Personal loan? It provides \$10 to \$250 or more repayable in sensible monthly amounts.

Loans at Personal are arranged simply and privately on your furniture, auto or signature. Co-signers are seldom required. To get a loan, come in, phone or write.

State Socialism And Dictatorship Ahead Is Fear Of Bankers Head

(International News Service)
NEW YORK, Sept. 14—Government deficits and continued bureaucratic control can only lead to state socialism and dictatorship, W. L. Hemingway, president of the American Bankers Association said today.
In an address before the Association's 66th annual convention, Hemingway, who is also president of the St. Louis Mercantile - Commerce Bank and Trust Co., added:
"Let us emphasize the necessity for the abolition of paternalism in government. The American people have always had a sound government because they were jealous of the power of government."
Hemingway pointed out that "although some of us are of opposite political faith, and others of us have opposed many of the president's policies" nevertheless banks have shouldered their responsibility in the war effort.
"We have sold bonds," he said, "We have kept books in terms of sugar, gasoline and other ration points, and now we are acting as tax collectors, all on a basis of no profit to ourselves and often at considerable expense."
But the obligation rests not only on the banks, Hemingway stressed, when he said:
"There is also an obligation binding the president, and that is that he not permit men in his administration to take advantage of the war emergency to permanently fasten upon us an economy alien to our traditions."
Hemingway warned that "The American way of life which has been the envy of the world, will be destroyed by enemies from within while we are fighting to defend ourselves from enemies from without" unless the idea is repudiated that government can direct the affairs of men better than men can themselves.

Senate Heading Into Battle On World Police

Creation Of International Police Force Proposed To Be Big Issue

By WILLIAM S. NEAL
(U. S. Staff Correspondent)
WASHINGTON, Sept. 14.—The senate today headed into an epochal battle over creation of an international police force to prevent future wars or punish aggressors.

The conflict may be carried on largely behind the scenes, because of the keen desire of leaders of opposing sides to avoid a public debate that would disrupt the war effort.

It became evident from statements made today, however, that a compromise general statement of American attitude in the postwar world must be made if an open fight is to be avoided.

Sen. Carl Hatch (D) N.M., co-author of the Ball-Burton-Hill-Hatch resolution calling for a permanent United Nations organization and an international police force, voiced hope that essentials of the proposal will be adopted.

Sen. Guy Gillette (D) Iowa, member of the foreign relations committee, said, however, that broad terms must be employed in pledging American collaboration in the post-war world.

Hatch construed Secretary of State Hull's statement on foreign policy as endorsement of a proposal to create an army and navy under the direction of a group of nations in order to prevent war in the future.

Gillette, member of a foreign relations subcommittee charged with framing a resolution on American attitude in the post-war world, said that an international police force under an international body, would bring disastrous consequences.

He declared also that vigorous opposition to creation of a "super-state" in the post-war world would be manifested in the senate.

MAJOR FOSTER HOME

Major Arthur B. Foster, Plans and Training Officer for Fort George G. Meade, Maryland, is spending a few days visiting friends in New Castle. With him is Mrs. Foster. Major Foster was assigned to some special duty at Camp Shenango, Transfer, Pa., which he has completed and will leave for Fort Meade later this week.

Small Force Of British Tommies Hold Nazis Back

(International News Service)

NEW YORK, Sept. 14.—A small force of British tommyes, with only a limited amount of food and water, held a narrow gorge unaided for 39 hours despite heavy enemy shelling and thus helped the Allies occupy Salerno, BBC reported today.

The broadcast, heard by CBS, was cited by observers as indicative of the hard fighting faced by the Allies in that sector of the Western Italian coast.

"The force occupied a mountain gorge close to the town and was told they must hold out in it for 12 hours until reinforcements could be brought in," the announcer said.

The Germans held the hills on both sides of the gorge and repeatedly shelled the British troops down in the valley.

Instead of 12 hours, the men were isolated for 36 hours before they heard from Allied headquarters. During that time they had been under heavy shelling, had exhausted their food and their two pints of water, but had actually made forays into the hills to drive the Germans back.

Finally they received a message from headquarters ordering them to hold three more hours at all costs. They did so, and just as they were approaching exhaustion, reinforcements reach them.

AXIS STILL BRAGGING ABOUT COAST DEFENSES

(International News Service)

LONDON. — In still another attempt to convince Europe that its coastal defenses are impregnable against Allied assault, the Axis propaganda bureau has launched a series of radio talks by neutral journalists who have toured fortified areas.

Latest of these was given over Lyons Radio by a French reporter, who declared enthusiastically:

"The network of anti-tank defenses runs along the beaches, behind which are thick concrete walls which could prevent any tanks from driving on to the interior."

"These walls are several yards wide and their length at some points is nearly ten miles. Remaining part of the defensive system is so well camouflaged that it is almost invisible."

GERMAN CLAIMS NOT CONFIRMED

No Evacuation At Salerno Is Contemplated Declare U. S. Military Authorities

(International News Service)

WASHINGTON, Sept. 14.—Competent military authorities in Washington today said that there was no confirmation of German claims that there was any evacuation of British or American troops in the Salerno area nor is any contemplated.

The same sources said that no information had been received from Allied headquarters to substantiate Nazi reports that 10,000 Americans had been taken prisoners or that the United States had suffered 10,000 casualties.

These sources pointed out that heavy fighting in the Salerno area is continuing and undoubtedly there have been losses on both sides. The battle is still fluid and further tough fighting is expected before the situation is completely clarified.

It is believed that the Germans are being reinforced with men and materials, especially tanks to replace losses inflicted by the Americans. At the same time efforts are being made to reinforce Lt. Gen. Mark Clark's fifth American army.

It was further pointed out in Washington that the Germans are in a much better position than the Allies to reinforce and supply their front lines at Salerno. All American equipment must be transported by water and landed under enemy artillery and air bombardment.

Although the situation is admittedly serious, it is felt in Washington that the ultimate outcome of the Salerno battle will be in favor of the Allies. On the other hand, should it become necessary to abandon the Salerno action, it is anticipated that the Allied troops withdrawn there would make a new thrust at some other point along the southern Italian coast.

Await Verdict In Court Martial Trial Of Colonel

(International News Service)

SELFRIDGE FIELD, Sept. 14.—Eight colonels and a lieutenant-colonel sitting as a court martial began deliberations today on the fate of Col. William T. Colman, ousted Selfridge commandant.

After reviewing testimony charging Col. Colman with 29 violations of the articles of war, Capt. Philip O'Connell, trial judge advocate, asked the court to:

"Punish Col. Colman for the harm that he has done to this country."

"Punish him for the harm that he has done to the army of the United States."

"Punish him so that all will know that this country will not tolerate or condone such actions."

Without referring to the shooting of Pvt. William McCrae, negro chauffeur, the trial judge advocate asserted the prosecution had proven "beyond a reasonable doubt" that Colman was in possession of property to which he was not entitled and had used his influence to obtain irregular transfers against Colman, he said.

Of the drinking charge against Colman, he said:

"In time of war when a man is drunk on duty, can there be any other solution than full punishment?"

Maj. Thomas A. Ballantine, chief defense counsel, in a brief argument on behalf of Colman, asked that he be acquitted of all charges on the grounds that he was not mentally responsible for his actions.

BLOODY BATTLE IS NOW RAGING NEAR SALERNO

(Continued From Page One)

ing in heavy fighting and have regained some ground from the American Fifth Army.

Occupation of Bari placed units of the British Eighth Army at a point 118 miles east and slightly north of Salerno, west coast port which has been churned into a bloody battle-ground since amphibious forces of the American Fifth Army landed there.

Swift Thrust

The drive into Cosenza in a swift northward thrust placed the British under command of Gen. Sir Bernard L. Montgomery 85 miles north of their original bridgehead at Reggio Calabria. This column still was approximately 125 miles below the embattled Salerno area.

British amphibious forces since early today have been running into the west coast port of Policastro, the Nazi DNB agency reported. The Germans claimed they were landing craft which had fled from Salerno, 60 miles north.

Headquarters of Gen. Dwight D. Eisenhower reported that heavy fighting continued on the Fifth Army front around Salerno.

The Germans are counter-attacking desperately and at certain points regained some ground previously taken by Lieut. Gen. Mark W. Clark's troops.

Eighth Army Advances

North and west of the captured naval base of Taranto, the communiqué continued, the Allies are extremely active.

The Eighth Army is progressing rapidly, it was said.

Cosenza, archbishopal see of Calabria, is a rail town 37 miles south-east of Paola on the west coast. Bari is an important communications hub 65 miles northwest of captured Brindisi.

In the air Allied planes hammered mercilessly at enemy communications and Nazi troop concentrations. Medium and light bombers smashed at roadways, railways and trans-shipment points.

Heavyweight bombers blasted roads and railways around De Grecco, Pompeii, Sala and Cassilina.

Ten German planes were destroyed in the battle area. Three other enemy craft were brought down, bringing the total loss to the Nazis of 13 against three for the Allies.

In Deadly Combat

Locked in deadly combat amidst sweat and blood, the hard-hitting American Fifth Army criss-crossed the battle fields in engagements with desperate crack German armored units throughout the day yesterday.

By sunset a major decision had not been reached but the Allied troops retained their firm grip on their own positions along the Salerno beachhead, which is several miles deep. Their positions run in a semi-circle around a 24-mile stretch of land running along the rim of the bay of Salerno.

Without pause British units and the Americans slammed into the grimly resisting Nazis in an effort to get a foothold on the heights beyond the beachheads. In the heights lie the main enemy strong holds in the center of well-emplaced positions.

Repeated Nazi Drives

The Germans in turn drove repeatedly against the Allied positions in an effort to shatter them by sunset Monday. These efforts did not succeed in the face of the powerful fire power of the Fifth Army.

Fighting of terrific intensity along the beachheads yesterday, along the banks of a river south of Salerno where high ground slopes close to the sea.

Evidence that the German high command views the situation there as serious and is intent upon holding its positions at all costs was reflected in the presence there of elements of the hard-bitten Hermann Goering 15th and 16th panzer divisions.

Observers declared that the Nazis appeared to be gambling everything in a showdown battle at Salerno, throwing into the fighting every available man and weapon.

Nazis On High Ground

The Allied troops are holding firmly the passes north and west of Salerno. The greatest factor in the enemy's favor is that the Americans and British are down on the Italian coast, commanded by the high ground used by the Germans for defensive positions.

Air superiority, however, is enjoyed by the Allies although Nazi fighters have the advantage of short flights from their bases to the battle area which permit them to hover over the Salerno region for longer periods of time. Despite this, the Allied aerial umbrella now is regarded as foolproof.

Another bright spot is the fact that the British Eighth Army is hastening northward against virtually no opposition, except that afforded by German demolitions. Yesterday it reached a point some 100 miles below the Fifth Army in the Taranto area, with the Italians manning their own guns against the Germans in the region around the road junction of Gioia, north of the big naval base. Some limited contact with the enemy was made in that region.

The British advance is posing an ever-growing threat against the Germans near Salerno.

Twenty-Two Lose State Appointments

(International News Service)

PITTSBURGH, Sept. 14.—A political upheaval in the state inheritance tax office today ousted 22 Democrats from the state payroll in Allegheny county.

The office was originally under Auditor General F. Clair Ross but was taken over by the secretary of revenue, David W. Harris, under an act passed at the last session of the Assembly.

Angry prominent Democrats to be fired was J. Warren Mickle, chief appraiser of the office with headquarters in Harrisburg, whose name was carried on the local payroll.

The dismissals, announced in a letter to Register of Wills John M. Huston, will take effect tomorrow.

TELLS HIS CUSTOMERS ABOUT ALL-BRAN

And How It Helped Relieve His Constipation!

Here's a really enthusiastic letter you'll want to read:

"I suffered for years with constipation. Took everything from salts to castor oil, and felt run down, always taking so many pills. Then, two weeks ago, I found out about ALL-BRAN. Since I've been eating ALL-BRAN, I have needed no pills, and am starting to feel like a new man. I'm telling my customers on my milk route about your wonderful product." Mr. Leon Swartz, 1338 N. Wilton St., Phila., Pa.

What's the secret of such reports of ALL-BRAN's results? Simply that ALL-BRAN is one of Nature's most effective sources of certain "cellulosic" elements—lack of which in sufficient quantities is a common cause of constipation! They help the friendly colonic flora fluff up and prepare the colonic contents for easy, natural elimination. ALL-BRAN is not a cathartic! It doesn't "sweep you out"! It is a gentle-acting, "regulating" food! If this is your trouble eat ALL-BRAN regularly, drink plenty of water. See if you don't cheer its welcome relief! Insist on genuine ALL-BRAN, made only by Kellogg's in Battle Creek.

Accidents And Fire Cause Boost In Compensation

(International News Service)

PITTSBURGH, Sept. 14.—Unexpected demands resulting from accidents growing out of a fire and an explosion were blamed primarily to-

day for a shortage in funds to meet Pittsburgh's 1943 workmen's compensation needs.

Council's appropriation of \$70,000 will be insufficient by a margin of \$15,000, according to a letter from City Solicitor Anne X. Alpern.

The letter refers to the Watson Standard explosion of June 1942, which increased the city's workmen's compensation liability more than \$30,000 and the William Penn fire in December, 1942, which added \$3,083.

STATE CAPITOL CLOSED

(International News Service)

HARRISBURG, Sept. 14.—The state capitol was closed today because of the primary election.

Many state workers, living 100 miles or more from Harrisburg, quit work last Friday and will not return until tomorrow.

Free speech means you could say what you pleased if you dared to risk losing your job or your customers or your hide.

"That was a swell picture, Dad!"

YES, going to the movies is a simple, homey, everyday part of our lives. But it represents an American privilege, too—the right to spend our leisure time as we wish; the right to unfettered education; the right to see what's happening in the world, truthfully and accurately.

And, though you may not often think of it, your railroad helps make such entertainment possible. For over its rails speed the films

from Hollywood, scenes from all over America, news-reels from all over the world. Yes, even in this little part of our American way of life, the B & O makes its contribution.

Of course, today, the B & O's biggest job is the transportation of troops and war supplies. But, when the war is won, we again will be working full-time to help your community enjoy the American way of life at its best.

PROTECT SCARGE RATIONED INGREDIENTS WITH ROYAL CREAM OF TARTAR BAKING POWDER

Lunch-box idea! Tasty HAM TURNOVERS

Menfolk love these new-style turn-overs—ham-filled and made from bak- ing-powder biscuit dough! Be sure to have 'em with reliable, cream of tartar ROYAL! It's even "steady action" helps to give fluffy, tender biscuits, and cakes that are light, fine-textured, fresh- keeping. Help protect your scarce ra- tioned ingredients. When baking at home, always use ROYAL cream of tar- tar BAKING POWDER! Insist on it!

2 cups sifted all- purpose flour 1/2 teaspoon salt
4 teaspoons Royal 4 tablespoons shortening
Cream of Tartar 1/2 cup milk, or half milk, half water
Baking Powder

Sift together flour, baking powder and salt; add shortening and mix in thor- oughly with fork. Add liquid to make soft dough. Turn out on floured board and toss lightly until outside looks smooth. Roll out 1/4 inch thick. Cut into 6 four-inch squares. Place 2 table- spoons Ham Filling in one corner of each square; fold over to make a tri- angle and press edges together with a fork. Place on greased baking sheet and bake in moderate oven at 450° F. about 20 minutes. Makes 6.

HAM FILLING: Melt 1 tablespoon mar- garine; add 1 tablespoon flour and stir until well blended. Add 1/2 cup milk slowly, stirring constantly until thick- ened. Bring to a boil. Add 1/2 cup cooked ground ham and 1/2 teaspoon parsley. Mix well.

MILITARY HEADS MUST JUSTIFY FATHERS DRAFT

Will Be Called Before Senate Naval Affairs Committee For Testimony

(International News Service)
WASHINGTON, Sept. 14.—Demo- cratic Senate Leader Alben Bark- ley, Ky., announced today that top- ranking military officers will be asked to justify the draft of fathers in testimony before the senate naval affairs committee "within the next two or three days."

He said that he would seek to arrange for appearance of Gen. George C. Marshall, chief of staff of the army, and Admiral Ernest J. King, commander in chief of the U. S. fleet.

This action was taken after Sen. Burton K. Wheeler (D) Mont., au- thor of the bill to prohibit draft- ing of pre-Pearl Harbor fathers un- til January 1, said he would press for action on the bill "at the earliest possible moment."

Barkley conferred with Wheeler. He said that Wheeler would not ob- ject to appearance of the military officers.

Wheeler said he had no objection to them appearing "in the next two or three days, but this does not mean any week's delay."

The senate, which convened today after a two month's recess, has pending a bill outlawing informa- tion war fraud suits. Wheeler would have to move to displace the bill be- fore the ban on drafting fathers could be taken up.

Earlier Wheeler served notice that he would vigorously fight any move on the part of the administration to unduly delay action on this bill. The draft of fathers is scheduled to begin on October 1.

Extensive repairs are being made to the Wilmington road, route 18, between this city and the borough of New Wilmington, which neces- sitates care in driving on the part of motorists.

Bad sections of the highway are being dug out and new concrete is being put in place, which will put the road in fairly good condition. The road is fairly good condition, highway department. Similar re- pairs have been made on the Butler road.

MRS. SHAW DIES

(International News Service)
LONDON, Sept. 14.—The death of Mrs. George Bernard Shaw, wife of the famed Irish playwright, was announced today.

Her 87-year-old author husband was at her bedside when Mrs. Shaw died Sunday night at the age of 67 in their Whitehall court home.

Mrs. Shaw, herself a translator of several French plays, philanthropist and patron of music and other arts, unlike her husband, always had avoided the limelight.

I'M HERE...

the enemy's just over the hill!

MAYBE I'm your boy—or the boy next door.
You know, Mary's sweetheart, Joan's husband, Timmy's daddy. Your son, Father! Your boy, Mother!

Anyway, I've got something to say to you. I've got to make you understand.

This is it. This is zero. This is INVASION!

I'm here, with a million other boys just like me. We're your INVASION forces. And we're going to stay. It wasn't easy getting here, and it is going to be a lot harder before we're through.

WE'RE GIVING ALL WE'VE GOT

I said we were going to stay. I promise that, even if it means the thing—well, the thing we don't like to talk about. Because we're giving all we've got: Our minds, our strength, our blood.

But you see, this isn't going to be enough. Not unless those planes we need snarl down out of the sky on the enemy just over there. Unless those tanks get here. Unless the supply ships get through. Unless there are enough bullets for this rifle.

YOU'RE ON THE INVASION FRONT NOW!

It's that extra \$100 War Bond, all of them together, making up the \$15 billion worth they're asking you to buy in September, that will prove that you are on the INVASION front with him.

Your part is at least one extra \$100 Bond during the Drive—at least \$100. Of course, that's in addition to your regular bond buying. A \$100 Bond is the rock bottom figure. Some of you will have to invest thousands to put this Drive across. Take it out of your pay check—or out of that nest egg you were saving for a rainy day.

All you can spare is too little, all you've got is just going to be enough.

Look at it this way: You won't be giving any- thing. You will be investing in VICTORY—and your future.

Things like safety for your family and money after the war to buy a new home, or to educate your children.

You're buying a stake in VICTORY—and that means America, yours and mine!

I guess that's all I've got time to tell you now. The enemy is waiting, just over the hill. Don't keep us waiting for you!

Brig. Gen. Mehard To Be Buried At Mercer, Home Town

(International News Service)
MERCER, Pa., Sept. 14.—Plans were made today for burial of Brig. Gen. Churchill Brown Mehard, World War I hero, and former Pitts- burgh city solicitor, in his native town of Mercer.

Brig.-Gen. Mehard's death in Phoenix, Ariz., Sunday was due to tuberculosis. While leading his

troops in the Meuse-Argonne offen- sive, he was overcome in a gas at- tack.

His third wife, the former Mrs. Virginia Lee Marsh of New Ken- sington, was with him when he died.

Mehard, 62, made his first promi- nent appearance in politics in 1931 when, as attorney for the registra- tion commission in Pittsburgh, he was instrumental in striking 51,900 "phantom votes" off the lists. He was appointed assistant county so- licitor in 1932.

Mehard was a front line soldier in France for 156 days and received 14 decorations, including the distin- guished service cross.

Two Beaver Falls Men Are Held On Ration Charges

(International News Service)
PITTSBURGH, Sept. 14.—Fede- ral Judge Guy K. Bard today ordered two Beaver Falls men held for court in \$1,000 bail each on charges of illegally transferring "C" ration coupons.

The men arraigned were Charles R. Ricks, accused on 10 counts, and Jonas J. Meckling, charged with

violating the second war powers act on three counts.

In an information filed against the pair, Meckling and Ricks were said to have have transferred sev- eral dozen gasoline coupons to other Beaver Falls residents.

CEILING PRICES SET ON LIVE HOGS

(International News Service)
HARRISBURG, Sept. 14.—Ceiling prices on live hogs were announced today for the 10-county Harrisburg area by the office of price adminis- tration in a move designed to main- tain current retail prices and pre- vent "pressure against wholesale pork ceilings."

The ceiling prices are \$15.30 a hun- dredweight at the Lancaster termi- nal markets, the only one of its kind in the area; \$15.10 at interior markets, such as Harrisburg, where 25,000 hogs are slaughtered annual- ly; and \$15 at buying stations out- side Harrisburg and Lancaster.

Exempted from the OPA order are hogs sold for feeding or breed- ing or raised by 4-H clubs and kin- dred organizations.

It works both ways. If our al- lies owe us for weapons that help win, we owe them for the blood they spill to help win.

Correspondent Sees Japs Doom

"Can Whip Japs Without Waiting For Germans To Quit" He Says

CITES CHANGES IN PAST YEAR'S WAR

(Editor's Note: Pat Robinson, veteran International News Service war correspondent who first reported to the Pacific war fronts in the darkest days of January, 1942, reports in the following dispatch that "we can whip the Japs without waiting for the Germans to quit.")

By PAT ROBINSON
INS War Correspondent
GUADALCANAL, Sept. 14.—A year ago every officer and enlisted man I met from General MacArthur down to the humblest buck private in the ranks felt that it would take us years to beat the Japs.

The consensus then was that we wouldn't begin to get anywhere until we licked Germany and Italy. We had comparatively few men operating in the Pacific and even fewer ships and airplanes.

Different Outlook
Today there is an entirely different outlook throughout the services. Even before the Italians capitulated last week, everybody believed that we not only can whip the Japs but we could do it without waiting for the Germans and Italians to quit.

This change in attitude is based on three factors: (1) our complete mastery of the air; (2) our continuing territorial gains, and (3) our increased supplies for every branch of the services.

For almost two years I have consistently refused to make even a guess as to how long the war might last in the Pacific because I couldn't see a rift in the clouds leading to the sunshine of victory.

Now I find myself as enthusiastic as some of the generals and admirals.

Last year everybody thought it would take years to capture Rabaul. Some even thought we might never get it. Now we know we can take it and what's more, I think the Japs know it too.

Use Jap Airstrips
Only a short time ago the Japs were bombing us from their airstrip at Munda on New Georgia. Now we are using that same strip and that fact alone must be a shattering blow to Jap hopes and Jap morale.

Naturally, we build airfields wherever we go. Sometimes it takes days, sometimes weeks to build one depending on the nature of the country, but build them we do. And every one we build brings our air force that much closer to the Japs' main strongholds.

You would have to be here to appreciate how much these new airstrips mean to us. With our fighters operating from their troops and supply barges into their island bases with impunity as they once did. Their Zeros and bombers catch hell almost before they are off their shore base at Kahili on Bougainville and we can make more bombing trips with greater fighter cover and less danger than we ever did.

Rabaul Must Fall
I haven't the slightest idea what plan General MacArthur and Admiral Halsey have in mind for the immediate future. But to an outsider it would seem entirely possible for us to by-pass Faisi and Buin and hit farther north on Bougainville either on the west coast or even up around Buka and let the Japs starve to death at Faisi and Buin as we are letting them starve on Kolombangara.

When we are entrenched at Lae and Salamaua and on Bougainville, Rabaul must fall, because the Japs could neither reinforce nor supply it.

It may be argued that Rabaul is still a long way from Tokyo. And so it is if you imagine that we are going to try to take every island between here and Japan.

But what is to prevent us from by-passing Sumatra, Java, Bali, Timor and other Jap-held islands and heading straight for Mindanao in the Philippines? It could be done and I have a hunch it may be done.

Even with the war going on in Europe we are gaining momentum out here, and it is not too much of a strain on the imagination to see Japan capitulating within three years at most. In fact, I'm willing to make a little bet on it, regardless of what happens in Europe.

MAT WEST—is U. S. war slang descriptive of a tank with two turrets; also a life preserver worn high under the armpits. Millions of us won't ride tanks or cross the ocean

so we must do our part on the home front and buy War Bonds to the limit to back the attack of our invasion forces.

Use your War Bonds . . . after Victory
... to buy the gas range or refrigerator
you've always wanted to own

People say: "Yes, there's plenty of money and jobs now—but what about after the war? How can Business assure employment? Won't there be another depression? Won't the Government have to 'spend and spend' again?"

What do you honestly think about it yourself? Don't you believe that American industry . . . if given the chance . . . could do as brilliant a job in peace as it is now doing in war?

Don't you believe that the average manufacturing

plant could start making peacetime products again and bring back all its old workers if it had orders? Don't you believe that those orders could be assured if people—after this war—had the money to put down for things they want to own?

War Bonds may well prove to be the answer to this whole problem of postwar employment for you, your sister's boy and the boy down the street who's now in the Air Corps.

Back up Uncle Sam, and your own son, husband or sweetheart, by buying all the War Bonds you can. That's for victory—now. Later they will be a backlog for the prosperity of your own family and a key to a richer enjoyment of living.

Yankees Need 10 Victories To Clinch A. L. Crown

NEW YORKERS LEAD CIRCUIT BY 11 1-2 TILTS

Bombers In Full Swing Of Power As They Dash Down Home Stretch

By JOHN CASHMAN
(International News Service Staff Writer)
NEW YORK, Sept. 14.—The New York Yankees, masters of the American League by 11 1-2 games, are today babbling happily and openly about the world series. Few teams have ever enjoyed the advantages now held by the Yankees, who need only ten games of a scheduled twenty to clinch the pennant.

The Yankees are contented, most of all, with the decision to play the first three games of the world series at home, starting Tuesday, Oct. 5. This is a concession which has not been enjoyed by any club since the Yankees met the New York Giants for a full series in the Polo Grounds 21 years ago.

Everything Favorable
The league leaders also like the idea of having a two-day rest in shifting to St. Louis. Spurgeon (Spud) Chandler, who will start the first series game, will have the benefit of that little vacation in pitching the fourth game in St. Louis. That Old Debbil money also prods a couple of horns into the picture. That fourth game will come on a Sunday, Oct. 10. The players share in only the first four games, as you know, and that Sunday crowd in St. Louis ought to swell the swag to near-record proportions.

Best of all, from the standpoint of Yankee fans, the odds are now favoring the New Yorkers at 7 to 5. Men reputedly fast with a dollar claim that the odds will go to 8 to 5 before the new take to the field in the initial series conflict, in view of whatever advantage the Yankees might have in paying the first three games at home.

Far be it from the Yankees, however, to play upon an advantage. President Ed Barrow offered to play the first tie of footers in St. Louis if the Cardinals "we just got around to mentioning them" felt the opening three in New York would give the Yankees a technical advantage.

The Yankee players themselves were rather perturbed by this report. Said one New York diamond warrior: "If that proposition had been accepted, we would have squawked like a cage full of parrots. There would just be no sense at all in opening in St. Louis. The players pool would have been cut down by about \$180,000."

Face A's Today
The Yankees are in the full swing of their power now, and today they open a three-game series with the Philadelphia Athletics, who are feebly stirring around in last place with an average of .333. Yankee pitchers kept the Boston Red Sox scoreless for 23 innings in their last stand and New York batting is a thing to be feared.

In the only game played yesterday in either league, the Brooklyn Dodgers walloped the Boston Braves, 10 to 3. Not, however, without first dropping a 7 to 6 decision to the Braves in a play-off of July 18th's game, which was stopped at the end of six innings.

A tenth-inning single by Tommy Holmes gave Al Javery his 14th triumph in the playoff. Whit Wyatt pitched the Dodgers to victory in the regular tilt. He hung up his 12th triumph and eighth straight as his clubmates rapped the knuckles of the Braves with 17 hits.

Yanks Bookies' Series Choice; Odds Are 7 To 5

Chicago Price-Makers Willing To "Take" 3 To 2; Pitching Favors Yanks

By DAVID J. WALSH
(International News Service Staff Writer)
CHICAGO, Sept. 14.—As Messrs. Ford Frick and Jim McManus headed back toward New York and Sam Breadon to St. Louis, after completing arrangements for baseball's annual Mardi Gras, price-makers in Chicago today made the Yankees 7-5 favorites to win the 1943 world series from the St. Louis Cardinals.

That is, the books were ready to "lay" 7-5, and "take" 3-2 (meaning \$140 to \$100, in the first instance, and \$150 for the same C-bill, in the second).

They may be thinking in terms of those first three games being played in New York.

And if that's the way it is, they may be picking the right club for the wrong reason. The field, for instance, won't win for the Yankees. As a matter of fact, three games of the 1942 event were played back in New York and the Yanks haven't beaten the Cardinals at the stadium yet!

Pitching Is Difference
A think like that can become well nigh homicidal in a one and two-run series, which is not very far away from what the '43 championship figures to be. But, in spite of all that, the Yankees have a great chance this time. Why? Not because they are the better ball club, their chance comes from the turn-over of the pitching situation between the two series.

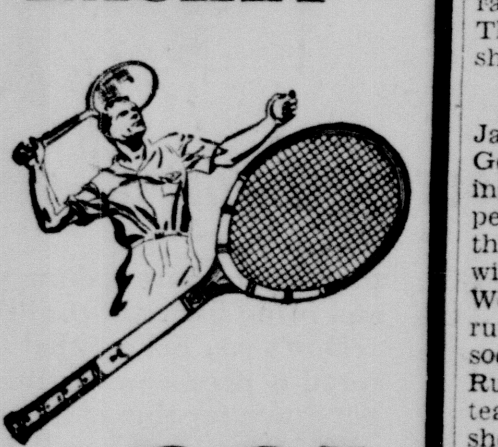

There have been good replacements. But, all told, one club's pitching looks to be greatly improved, and the other's just enough worse to make the difference seem fairly vital.

New Castle Starts Defending Crown Friday In Valley

WPAL Titlists Will Face Beaver Falls Tigers; 'Canes Drill Monday

Scheduled to start defending their 1942 Class AA WPAL championship on Friday night, New Castle high's 'Canes returned to Taggart stadium yesterday afternoon and immediately began girding for the Beaver Falls "away" engagement.

Head Coach Phil Bridenbaugh pulled out his black notebook and pointed out the various fault steps made in the 38-0 victory over Grove City high. The athletes then trotted onto the field, under a warm sun, to polish their attack.

Workout Light
Yesterday's drill was devoid of "weight," the gridders taking their daily calisthenics good naturedly and then moving up and down field in a long signal drill.

Today's program, however, calls for a long scrimmage.

Assistant Coach George "Gig" Thomas, who watched the Valley Tigers maul Monaca, came back with a detailed report concerning the BF eleven.

In their Monaca game, Beaver Falls looked mighty good. They piled up 21 first downs and held Monaca to four. From that, you can see that Beaver Falls has a good ground game. They are pointing for New Castle, as they always do and will give New Castle plenty of headaches.

Second Wins, 19-0
The second and third stringers staged the first of their Monday games and produced an abundance of thrills. The seconds romped off the field with a 19-0 edge.

John Benigas dashed over for the initial "touch," followed by Bill Andrews in the third and Fred Wimer, an end, in the fourth.

"Bully" Walls, ex-George Washington star, flashed fine form for the winners, ripping off substantial gains consistently. Lucidore and Garberry displayed fine form on the line.

Despite the frigidty of Friday night approximately 1,400 persons witnessed the various events held in the Butler Yankees baseball park which was climaxed by eight boxing bouts between amateurs for the benefit of the Deshon army hospital recreation fund. In the main bout Joe Farrell, Deshon hospital, junior national A. A. U. champion flattened Amos Watson, Youngstown, in the opening session. They are featherweights. The bouts were arranged by Tom Leach, this city. The affair was under the chairmanship of Jack Dunlevy.

Fritzie Zivic has signed to meet Jake LaMotta of New York in Gotham. It will be their third meeting, each having won a bout. Appears like a family affair between that pair. Dapper Dan Day will be held at Wheeling Downs, Wednesday. Three races will be run in honor of the charitable and social organization. Pauline Rugh, coach of Bell township school team lost her first game 47-0, but she's hopeful. It was Bell's first game and her inaugural as a coach.

Patty Berg has been ordered into the Marine Training camp at New River, S. C. She's the Minneapolis links star.

Revolver Club Meeting Is Off
Secretary "Chuck" Schweinsberg today announced that the weekly meeting of the Sportsman's Revolver club has been canceled.

The club resumes its regular schedule next Monday night at 7:30 o'clock with the usual firearms school session.

JB Blanks UEF, 6-0; Softball Series Even

Bronzers Rout Bishara; "Gabby" Kendra Twirls Two-Hitter; Copple, Kelly Star

There are a lot of smiling faces around the Johnson Bronze today because the JB goose-egged the United Engineering softball artists, 6-0, at Gaston Park last night.

Linked to get their ears flattened, the Bronzers pulled the unexpected by shelling the great Norm Bishara off the mound to even the count in the current New Castle industrial title series at 1 up.

Kendra Tight
After an even first frame, the Bronze scooted around for two runs. This was more than "Gabby" Kendra needed as he mystified the hard hitting UEF. Kendra was exceedingly penurious, allowing two hits.

For good measure, the winners added two more deuces, in the third and sixth, to square accounts for last week's 2-0 setback.

The losers had trouble handling the ball. They misused five times during the course of the evening.

"Tex" Kelley and Frank Copple set the hot pace for the JB by rattling two hits apiece. Bullano and Baker garnered the losers' two safeties.

Three Players Hurt
Injuries to Frankie Colloello, "Shorty" Bonk and Tex Richards have crippled the UEF forces.

Another large gallery watched the arch rivals unfurl the exciting contest.

(International News Service)
PITTSBURGH, Sept. 14.—Frankie Frisch, under whose guidance the Pittsburgh Pirates have finished in the first division three out of four years, today was signed on the dotted line to manage the Corsairs for a fifth term in 1944.

Frisch succeeded Pie Traynor in 1940, having been contracted for in October of the preceding year. Under his management, the Pirates have won 298 games and lost 298 games.

"I am sure that all fair-minded followers of the Pirates will agree with me that Manager Frisch has done all that could have been expected of him or any other manager under the conditions that have existed during the 1943 season," owner Bill Benswanger stated in his announcement.

"Everything considered, Frank has done a good job. It must be remembered that in the spring most critics throughout the country picked the club to finish in the second division. Yet, indications now are strong that the Pirates will be among the first four when the season ends."

CASTLE HILLS TOURNEY OFF

William "Bill" Nunn, well-known local golfer, today announced that the annual Castle Hills Senior tourney has been postponed on account of the war.

At the same time, Nunn announced that the club's committee of 12 will enjoy a get-together Wednesday afternoon at 4 o'clock.

After touring the fairways, the group will dig into a buffet lunch and later present Attorney Robert Wallace with a trophy for scoring a hole-in-one on August 15.

Ed Kileman, Baltimore's star pitcher, went to the mound four times before he could win his 20th game.

ENROLLMENT AT WESTMINSTER TO MAKE NEW HIGH

(Special To The News)
NEW WILMINGTON Sept. 14.—When regular classes open tomorrow, Westminster college will have the largest enrollment in its history. Although a large number of men students have been called to service, addition of 300 army specialized training students and over 100 naval aviation cadets to the regular civilian enrollment has boosted the population of the college community to capacity.

The increased enrollment this year has necessitated rearrangement of classrooms, of instructors, and also the shifting of class schedules to make room for army classes. In addition, a number of new instructors have been added to the college faculty.

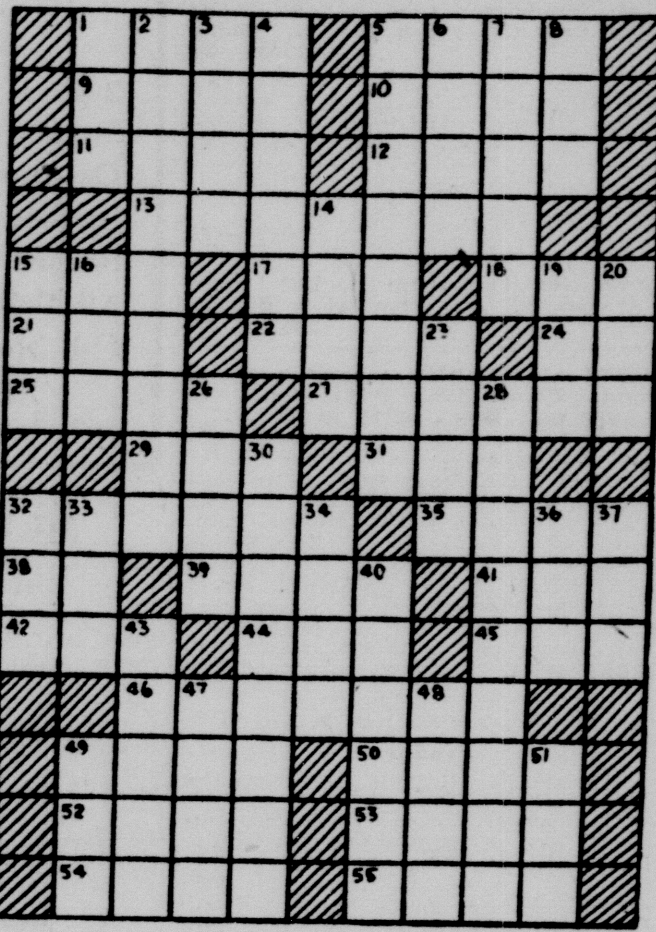

While classes for ASTP cadets began Monday morning under the direction of regular college instructors, civilian training classes are not scheduled to get under way until tomorrow morning. Freshmen students completed registration on Monday afternoon while sophomores, juniors and seniors were registered today.

Freshman and new students were introduced to members of the faculty and the college staff at the annual freshman reception in Ferguson hall last night.

At the first faculty meeting, President R. F. Galbreath again instituted his policy of the maximum amount of individual attention to students. Acting Dean Harold L. Black has personally supervised the arrangements of all schedules for first-year students and has made suggestions for the budgeting of the student's time.

OCD NOTES

Activities of OCD Workers Are Outlined Here

Tonight at Boyles Field, corner of Highland avenue and Laurel boulevard, there will be a demonstration by Auxiliary Fire company No. 2, assisted by the wardens of the sectors around this neighborhood. It is intended to erect a couple of shanties, then use incendiary bombs to destroy these shanties. It is desired that the wardens who are going to take part in this demonstration be on the job in good time, reporting to the officers of Auxiliary Fire company No. 2, having with them one stirrup pump from their sector, so that they can be told of the part they are expected to play in this demonstration.

Members of No. 2 Auxiliary Fire company are requested to be at their station in plenty of time. All other persons interested in seeing this demonstration are invited to be at Boyles Field at 8 p. m. because this will likely be the last bomb demonstration this fall, as thermite and other materials used in making incendiary bombs is very hard to get.

Rescue Squad will hold a business meeting at the Central Fire Station Thursday evening at 8:00.

ITALIAN PRISONERS OF WAR GRATEFUL

(International News Service)

FORT BENNING, Ga., Sept. 14.—Italian prisoners of war interned at Fort Benning were grateful today for Italy's capitulation to the Allies and good treatment accorded them as war prisoners.

The Rev. Roderick MacEachern, who serves as chaplain to Fort Benning prisoners, said the Italians Sunday had requested a special Tedeum mass, marking the capitulation of their homeland. Two of the prisoners served as altar boys at the mass.

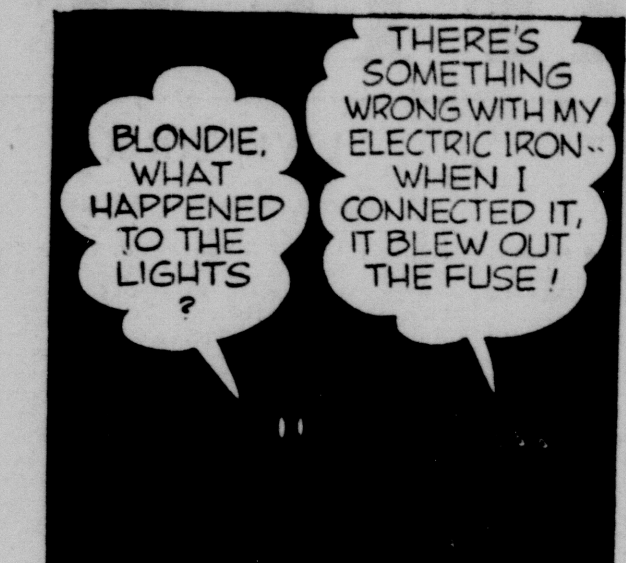

In his sermon Father MacEachern reviewed Italy's "glorious" history in arts, music and literature. He declared the common people of the nation will resurrect the glory of their homeland.

GRAND JURY MEETS

September's grand jury convened in court room number one Monday morning and got down to the business of considering bills of indictment passed up to them by District Attorney Leroy K. Donaldson. Originally there were twenty-four cases to be considered but pleas cut this down to some and probably the list will be lowered still further by the time the criminal court opens Monday, September 20.

W. Arthur Brown of Wampum was appointed foreman of the grand jury and the court instructed the jury in its rights and in the work to be done. The jury will probably finish its deliberations late Tuesday or early Wednesday.

More deputy constables were appointed Monday, Judge W. Walter Braham naming men to assist the elected constables in the election today. Nine deputies were appointed in the second ward as follows: First precinct, C. C. Horner; second precinct, D. W. Byers; third precinct, Andrew Perry; fourth precinct, John A. Thompson; fifth precinct, Clyde N. Lockhart; sixth precinct, Paul Lewis; seventh precinct, Howard Leslie; eighth precinct, James J. Jenkins; ninth precinct, John C. Williams.

In the first precinct of Wilmington township, E. C. Cotton was appointed. Second precinct, Harvey Boyles.

In the first precinct of the Fourth ward, Ellwood City, Calvin D. Cook was appointed.

Length Of War Depends On How People Respond

(International News Service)

PITTSBURGH, Sept. 14.—Gov. Edward Martin today warned Pennsylvanians that "this is not a 10 per cent war" and that "we cannot win this war on a 10 per cent basis."

Speaking at a bond drive in Pittsburgh, the state's chief executive pointed out that this is total war and its length depends upon the effort every man, woman and child puts into it. He urged that instead of 10 per cent, workers invest 25 per cent of their earnings in war bonds.

He declared that while Pennsylvanians had made a "truly impressive record in bond sales," every let-up in production prolongs the war. "I am sorry to make this admission," he added, "but the coal strike alone cost us 170,000 tons of steel, enough for 50 liberty ships."

Expecting a Baby?

Mother's Friend helps bring ease and comfort to expectant mothers.

MOTHER'S FRIEND, an exquisitely prepared emollient, is useful in all conditions where a bland, mild anodyne massage medium in skin lubrication is desired. One condition in which women for more than 70 years have used it is an application for massaging the body during pregnancy. It helps keep the skin soft and pliable, thus avoiding unnecessary discomfort due to dryness and tightness. It refreshes and tones the skin. An ideal massage application for the numb, tingling or burning sensations of the skin, for the tired back muscles or cramp-like pains in the legs. Quickly absorbed. Delightful to use.

Mother's Friend

Highly praised by users, many doctors and nurses. Just ask any druggist for Mother's Friend—the skin lubricant. Try it tonight!

TRAFFIC DEATH TOLL STILL HIGH

(International News Service)

HARRISBURG, Sept. 14.—A total of 666 traffic deaths was recorded today for the first seven months of the year by the State Bureau of Highway safety.

The death toll showed a 36.7 per cent decrease compared with 1053 fatalities listed for the period in 1942.

"It must not be forgotten," the bureau pointed out, "that during the past years in motor vehicle traffic accident experience the second half of the year always had an increased number of motor vehicle traffic accident deaths, in an increasing number as the months pass by."

Large Sum Paid Dependents Here Of Service Men

Over Million Paid in Lawrence County During Past Year, Report Shows

(Special To The News)

NEW YORK, Sept. 14.—Checks totaling \$495,000 in family allowances and allotments went in the past year to New Castle residents who have sons, husbands or fathers in military service, according to figures issued by the War Department's Office of Dependency Benefits.

These checks, 1,440 in number each month, consisted of \$332,000 in family allowances and \$163,000 in money voluntarily set aside by the service men from their pay.

To Lawrence County relatives of soldiers went 3,000 checks a month, calling for \$1,030,000 in family allowances and allotments during the year.

The total of the nation's allowance and allotment checks, to the tune of over 4,000,000 monthly in the past year, were issued by the ODB from its 18-story building in New York, N. Y.

Handling this huge job with dispatch is made possible only by nearly complete mechanization, employing such master machines as check writers, check signers, envelope fillers and error detectors. In the past twelve months the ODB sent out \$924,456,354 in allowances and \$452,225,210 in allotments. Payments in the allowance category are based on \$50 monthly for the wife, \$12 for the first child and \$10 for each additional child.

COURT SESSION CANCELED

MERCER, September 14.—The September term of court, scheduled to open today at Mercer, was cancelled by District Attorney Edwin C. Moon after a conference with Judge George H. Rowley.

It was the third court postponement effected by Moon this year and means a considerable saving to county taxpayers.

Twelve true bills were returned by the grand jury last Friday but a number of defendants entered guilty pleas on Saturday and the other cases were continued.

Expecting a Baby?

Mother's Friend helps bring ease and comfort to expectant mothers.

MOTHER'S FRIEND, an exquisitely prepared emollient, is useful in all conditions where a bland, mild anodyne massage medium in skin lubrication is desired. One condition in which women for more than 70 years have used it is an application for massaging the body during pregnancy. It helps keep the skin soft and pliable, thus avoiding unnecessary discomfort due to dryness and tightness. It refreshes and tones the skin. An ideal massage application for the numb, tingling or burning sensations of the skin, for the tired back muscles or cramp-like pains in the legs. Quickly absorbed. Delightful to use.

Mother's Friend

Highly praised by users, many doctors and nurses. Just ask any druggist for Mother's Friend—the skin lubricant. Try it tonight!

TRAFFIC DEATH TOLL STILL HIGH

(International News Service)

HARRISBURG, Sept. 14.—A total of 666 traffic deaths was recorded today for the first seven months of the year by the State Bureau of Highway safety.

The death toll showed a 36.7 per cent decrease compared with 1053 fatalities listed for the period in 1942.

"It must not be forgotten," the bureau pointed out, "that during the past years in motor vehicle traffic accident experience the second half of the year always had an increased number of motor vehicle traffic accident deaths, in an increasing number as the months pass by."
